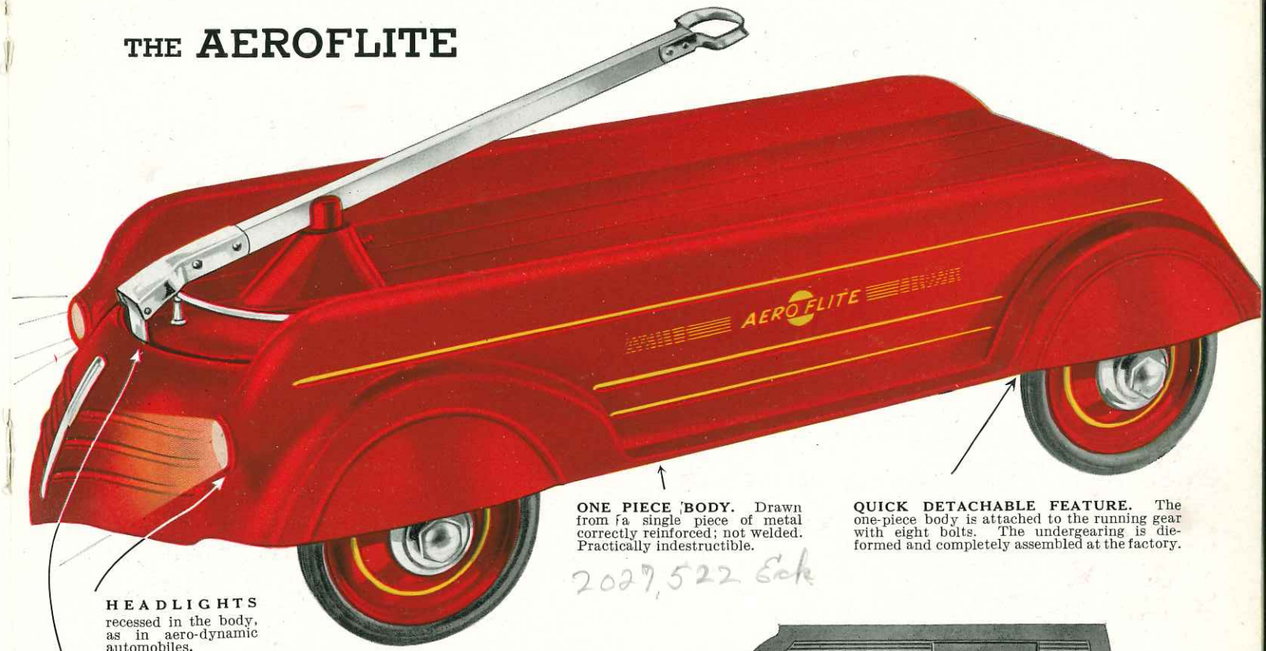
THE AEROFLITE



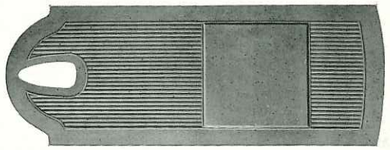
HEADLIGHTS recessed in the body, as in aero-dynamic automobiles.

NEW STEERING PRINCIPLE. Patented construction provides for steering through slot in body. Gives positive, direct, accurate steering for the first time, with handle resting almost flat against the body—and a stronger, more rigid front end than ever before. Large fifth wheel is die-formed, turntable style; no front braces required.

ONE PIECE BODY. Drawn from a single piece of metal correctly reinforced; not welded. Practically indestructible.

2027,522 Eck

QUICK DETACHABLE FEATURE. The one-piece body is attached to the running gear with eight bolts. The undergearing is die-formed and completely assembled at the factory.



RUBBER KNEELING PAD now available at extra price. Snug fit around steering device holds pad firmly in place.
